

MNT-DNTOWL INSTALLATION INSTRUCTION

Caution: Make sure the airgun is not cocked or loaded. Use safe handling procedures at all times.

DOVETAIL TO PICATINNY ZERO COMPENSATION TACTICAL MOUNT

1 Place the airgun on a vise with padded jaws to protect the airgun.

2 Using proper Allen wrenches included with the mount to loosen the 3 side locking screws and the top stop-pin of the mount.

3 Hold the mount in front of the dove tail. Align the rear of the mount with the front end of the dovetail rail. Slide the mount backward on the dovetail rail until the recoil stop shoulder of the mount contacts the front end of the dovetail rail.

4 Tighten the 3 side locking screws to lock the mount firmly. Take care not to over-tighten the screws.

5 Tighten the stop-pin from top of the mount properly.

6 Now, the mount is available for installation of rings and scope.
